

## What We Do

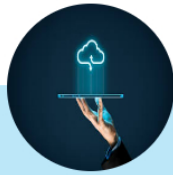

Softhorizon is a provider of IT services and software development services. We have helped organizations and companies improve business performance & enhance their competitiveness.

### IT Support

We are available to consult with you or your staff when problems arise with your software. This service can be either remote or on-site assistance.

### Cloud Services & Data Management

We will work with you to establish the appropriate cloud size and available resources for your business.

### Web and Android development

We will work with you to establish the appropriate web development and android applications for your business.

### Server Support

We are available to consult with you or your staff when problems arise with your software. This service can be either remote or on-site assistance.

## About Us

### Our Philosophy

To become part of your extended team and help companies successfully expand their tech capability.

### High ROI

Many companies find that constant maintenance eats into their budget for new technology. By outsourcing your IT management to us, you can focus on what you do best--running your business.

### Satisfaction Guaranteed

That's why our goal is to provide an experience that is tailored to your company's needs. No matter the budget, we pride ourselves on providing professional customer service.

## Our Partners

## Reviews

What a wonderful bunch of developers and designers, its really great to see such a lovely team who works on such a beautiful design.

Good Service by the engineer. I liked the overall service

Good and Satisfied service by the team of SoftHorizon. Engineer's are doing a great job.
